FIX OLD RADIOS IN A JIFFY!

Fix 'em good as new... without lost time or needless testing

Often it takes more time than it's worth to fix old radios... but NOT when you own this 3 1/2 pound, 744-page Ghirardi RADIO TROUBLESHOOTER'S HANDBOOK! The only service guide of its kind still in print! Gives common trouble symptoms and remedies for over 4,800 old-time receiver models made by 202 manufacturers prior to 1942—also auto radios. Even beginners can use it to repair old sets that might otherwise be thrown away because service data is lacking or because testing takes too long.

CUTS SERVICE TIME IN HALF

This famous Handbook more than pays for itself the first time you use it. Covers 85% of the things that are apt to go wrong. Shows exactly where the trouble is likely to be. Explains step by step how to fix it without lost time or needless testing.

Gives full service details on old sets made by Airtline, Apex, Arlin, Atwater Kent, Belmont, Bosch, Brunswick, Clarion, Crosley, Emerson, Fada, G-E, Kolster, Majestic, Motorola, Philco, Pilot, RCA, Silverstone, Sparton, Stromberg and dozens more. Includes hundreds of pages of old tube, transformer and other component data.
